June 13, 2017

To all albacore fishermen,

As the season begins I wish to send you a hearty thank you to those of you who have supported our growth in the domestic canned albacore market. This promotion has increased awareness of our fishery among consumers and created preference for your fish...which we, of course, love to see in our cans. This really is win, win, win and win – fishermen/buyer/consumers/the fish too (as they are being harvested in the most environmentally responsible way possible).

I'd also like to remind you all of our interest in your fish this season and our availability to service your selling needs. We are buying in all these ports:

- Eureka, Newport and Westport.

The **best way to contact us** to sell fish or inquire regarding price or other questions is to call Tony Bettencourt. He is the West Coast Fleet Procurement Manager and is really available, and happy to accommodate your needs to the extent possible. He will be staying in Newport again; his summer home away from home; and he packs in his hip pocket a Wild Planet checkbook for COD buying 24/7.

**Tony's cell number is: (541) 961-9928**

Here are the other numbers:

- Main Wild Planet office (707) 839-3270
- Eureka Wild Planet dock (707) 445-0101
  - o Jeff Huffman Eureka Manager (707) 845-5522
- Westport Seafood (360) 268-0133

We hope all have a safe, productive and profitable season, and we stand ready to assist to that end.

Best regards,

Bill Carvalho
