

## Summer 2019 – Sailor Fleet One Fishing Promotion

### Flexible, Affordable Broadband for the Fishing Season

#### Tired of slow satellite phone connection speeds?

The Inmarsat Fleet One is the best maritime broadband option for your fleet's at-sea communications. **Perfect for small to medium sized vessels**, the Fleet One is easy to set up and allows for flexible, seasonal service contracts.

- ✓ Retrieve SST and other fishing data fast, download weather info, check your email, and get updated charts—all through one device.
- ✓ FleetOne Broadband Data + MSAT Push-to-Talk Voice!  
*Ask us about our promotion for MSAT owners.*
- ✓ Airtime plans for as low as \$20 per month with no long-term commit or overwinter payments.
- ✓ Purchase a NEW Sailor Fleet One for as low as \$2695.
- ✓ Access the OCENS suite of satellite-optimized communication apps.

#### THE OCENS DIFFERENCE

"To anyone who makes their living on the water, the OCENS product is a must."

- Tom Branshaw,  
Owner & Captain, FV Northern  
Mariner

*Because staying connected  
should be easy.*

# Fleet One – Full-featured Broadband

High-performance global connectivity at a price you can afford

Fleet One is specifically designed to meet the data usage demands of occasional or seasonal users when they move out of Wi-Fi or GSM coverage areas. **OCENS offers flexible airtime plans to put satellite broadband in the reach of small- to medium-sized commercial vessel owners.** Best suited for workboats and fishing vessels under 100'.

## Fast

Simultaneous 4 Kbps voice and 100 Kbps data (increasing to 150 Kbps in 2019), plus standard 3G SMS messaging.

## Compact

Small and lightweight to fit your fishing vessel or workboat, with an 11-inch, 9-pound antenna.

## Compatible

Works in conjunction with OCENS Sidekick and provides convenient access via WiFi to fishing data, weather, email, text messaging & more.

## Intuitive

Easy to install and use, with out-of-the-box plug-and-play antenna and below-deck unit configurations using standard 12v DC and ethernet connectors.

## Flexible

With a wide variety of airtime plans, purchase and rental options, and a minimum 1-month term, Fleet One can be used year-round or seasonally to fit your needs and budget.

## Reliable

Provides unrivaled reliability, even in inclement weather, on an L-band network with an average availability of 99.9%.

## Better Safety at Sea

Rely on OCENS single-call technical support to get answers right when you need them.

Free 505 emergency calling that directs straight through to a Maritime Rescue Co-ordination Center (MRCC), no matter how bad the weather conditions.

## Ready for faster internet this fishing season?

Order your Fleet One system and service at [ocens.com/fleetone](https://ocens.com/fleetone) or contact OCENS by email at [sales@ocens.com](mailto:sales@ocens.com) or phone at 206.878.8270.

# OCENS + Inmarsat Fleet One

Satellite equipment, airtime, apps, and support to keep you connected.

OCENS keeps your fleet connected, providing the equipment, apps, and support you need from before you leave until you safely return home. With the Inmarsat Fleet One Maritime Broadband solution from OCENS, **you'll have a full suite of satellite-optimized applications that work right from your favorite device so you can connect easier, faster, and with less risk of overage charges.**
